

Domat/Ems, October 10, 2010

PRESS INFORMATION

Effective as from October 2010, EMS-GRIVORY (CH) will increase their prices in Europe by 5 – 10% depending on product family.

The products concerned are Grilamid PA12, Grilamid TR, Grivory GV/HT and Grilon A, B and TS.

The price increase is mainly due to the continually increasing raw material costs. An additional shortage of some specific raw materials has also caused significant cost increases.
